

MUTARUTWA Immaculate

Software Engineering Student | IT & Software Development | Networking

0788434155 • rutaremaraimmaculate@gmail.com • Rwanda

PROFESSIONAL PROFILE

Software Engineering student at the Adventist University of Central Africa (AUCA) with practical experience through academic and collaborative projects in software development, networking, Linux, web server configuration and Docker deployment. Experienced in working on practical technology solutions including community safety analytics, drone management, campus item borrowing and student visit systems. Alongside my studies, I have managed a retail business since 2020, developing strong skills in customer relations, communication, business operations, marketing and problem-solving.

EDUCATION

- | | |
|----------------|---|
| 2024 – Present | Adventist University of Central Africa (AUCA)
